- **Ethics in the Clinical Relationship:** This workshop addresses key topics such as ethical decision-making, diagnosis, strength-based practice, the ethical use of evidence-based methods, boundaries, physical touch, self-disclosure, verbal communication, ending therapeutic relationships, and online counseling.
- **Cultural Competence in Clinical Practice:** This presentation explores the difference between cultural competence and humility, effective ways for clinicians to address microaggressions, and how to build rapport using intersectionality. It also focuses on integrating cultural responsiveness with evidence-based practices and transforming unconscious bias into conscious understanding to improve clinical outcomes.
