

## Opioid Settlement Grant

3 Programs at 3 agencies are contracted to receive FY26 Opioid Settlement funding

### Domain 1 – Increased Knowledge/Resiliency

Number of **programs reporting** Domain 1

Q1: 1                      Q2:                      Q3:                      Q4:

**Total number** of active participants **receiving a service** to increase knowledge/resiliency

Q1: 732                      Q2:                      Q3:                      Q4:

**Total number** of active participants **measured** for Domain 1

Q1: 102                      Q2:                      Q3:                      Q4:

**Average percentage** of active participants reporting **increased** knowledge/resiliency

**Network Target:** 81%

Q1: 100%                      Q2:                      Q3:                      Q4:

**Average percentage** of active participants reporting **maintaining** knowledge/resiliency

**Network Target:** 17%

Q1: 0%                      Q2:                      Q3:                      Q4:

**A representation of network provider Measurement Tools used:** Brief Assessment of Recovery Capital (BARC-10).

**A representation of network provider Evidence-based Practices used:** Psychoeducation.

### Domain 2 – Abstinence/Reduction in Use

Number of **programs reporting** Domain 5

Q1: 2                      Q2:                      Q3:                      Q4:

**Total number** of active participants **receiving a service** to refrain from or reduce alcohol/drug use

Q1: 96                      Q2:                      Q3:                      Q4:

**Total number** of active participants **measured** for this domain

Q1: 88                      Q2:                      Q3:                      Q4:

**Average percentage** of active participants **refraining from** alcohol/drug use

**Network Target:** 87%

Q1: 94%                      Q2:                      Q3:                      Q4:

**A representation of network provider Measurement Tools used:** Brief Assessment of Recovery Capital (BARC-10), and provider surveys.

**A representation of network provider Evidence-based Practices used:** Screening, Brief Intervention and Referral to Treatment (SBIRT), Community Reinforcement and Family Training (CRAFT), Brief Assessment of Recovery Capital (BARC-10).

## Domain 8 – Access/Capacity

Number of **programs reporting** Domain 8

Q1: 3                      Q2:                      Q3:                      Q4:

**Total number** of individuals served

Q1: 837                      Q2:                      Q3:                      Q4:

**Total number** of new individuals served

Q1: 833                      Q2:                      Q3:                      Q4:

## Domain 9 – Consumer Experience Survey

Number of **programs reporting** Domain 9

Q1: 3                      Q2:                      Q3:                      Q4:

**Total number** of Consumer Experience Surveys sought

Q1: 202                      Q2:                      Q3:                      Q4:

**Total number** of Unduplicated Consumer Experience Survey responses received

Q1: 197                      Q2:                      Q3:                      Q4:

**Average percentage** of Consumer Experience rating

**Network Target:** 93%

Q1: 96%                      Q2:                      Q3:                      Q4:

## Wait Lists

Total number of **programs reporting** a wait list

Q1: 0                      Q2:                      Q3:                      Q4:

**Total number** of individuals on wait lists

Q1: 0                      Q2:                      Q3:                      Q4:

**Average** length of time (in days) from first contact to initial assessment/intake

Q1: 0                      Q2:                      Q3:                      Q4:

## Ineligible Referrals

Total number of **programs reporting** ineligible referrals

Q1: 0                      Q2:                      Q3:                      Q4:

**Total number** of ineligible referrals received

Q1: 0                      Q2:                      Q3:                      Q4:

**NOTE:** Network targets are calculated as an average of 2-year (2023-2024) historical data collected for the network.
